STATEMENT:
With the input and support of District 2, we have accomplished much in the years I have served as your Representative. Now the house district lines have changed statewide. I am excited to have the opportunity to serve Ketchikan and northern Prince of Wales as well Wrangell in District 33.

Over the past 12 years, I have built strong relationships with my fellow legislators. These relationships as well as being in leadership, are critical to getting legislation passed for Southeast Alaska. Seniority does make a difference!

The past four years I served as Transportation Committee Chair. My current goal is to set up a dedicated Transportation Fund that will allow long term planning and purchasing of needed infrastructure, including ferry service.

I am a strong supporter of the responsible use of all natural resources. Mining has become a growing opportunity in southern Southeast and I will continue to work with other resource committee members to streamline this development process. I will fight to ensure that fisheries decisions are made based on science not politics.

I am a strong supporter of education and will continue the fight for increased funding and innovative curriculum changes.

My door is always open. During session, I communicate with you through regular radio and newspaper commentaries. I want you to be informed about what the legislature is doing so you can provide your input.

I will make the tough choices you demand and will work hard for you and your families. Thank you for your vote.
